

What could your smile look like with straighter teeth?

> **Scan the QR code to see what Invisalign treatment could do for you.**

- 01 Open the camera app.
- 02 Position the phone over the QR code so that it appears over the viewfinder.
- 03 Tap to launch website QR code when a notification bar pops up on your screen.*

*For some Android phones: If no notification bar pops up on your screen, you will need to install a QR code reader app.

SmileView outcome simulator is a computer-generated simulation of how your smile might look after teeth-straightening treatment. Not available for use for people with chipped and/or missing teeth. Invisalign treatment is a series of clear plastic removable orthodontic aligners that gently move patients' teeth. An orthodontist or Invisalign trained dentist will be able to advise whether Invisalign treatment is right for you. You should read and follow their directions for use.
