## About Dr Martin Poon and Dr Geoffrey Hall

Dr Martin Poon and Dr Geoffrey Hall are registered dental specialists who after obtaining a dental degree at the University of Melbourne, have completed an additional full-time University training in orthodontics at the prestigious University of Pennsylvania. They are both facial growth and dental development experts and have over 38 years of orthodontic experience and have completed over 13000 orthodontic cases between them.

Besides treating children and teenagers through **braces** and **early interceptive treatments**, Dr Poon and Dr hall are considered experts in the area of adult orthodontics with Dr Hall developing the unique **Smilefast system** and Dr Poon being one of the few **Diamond Invisalign providers** in Australia.

Not only do they regularly attend continuing education courses to be at the forefront of orthodontics, but provide lectures to the dental community locally, nationally and internationally. Dr Hall has been a keynote speaker at several international prestigious orthodontic meetings.

## Your First Visit

Our aim for your first visit with us is to fully understand your concerns and to discuss various treatment options available to you. Besides performing a thorough orthodontic examination, we may require some x-rays and photographs of your teeth. Our treatment coordinator will also discuss various payment options and our aim is to make your new smile as affordable as possible.

Following your initial examination a report will be sent to yourself and your general dentist.

This first visit generally takes 30-40 minutes and you can find out more about us on [www.mportho.com.au](http://www.mportho.com.au)

We look forwards to meeting you!
